

District Services

1. Learn how to effectively run a remote IEP meeting

There is a unique culture that must be learned for running video or conference call meetings. Our experienced team will help you learn the tips, strategies, and etiquette needed for effective remote IEP meetings.

Going virtual means learning the what, where, and how of data flow and storage. Our experts will help you understand the key integration and interoperability features and risks in your enterprise contract.

3. Run logistics of IEP meetings

It can be overwhelming to completely change a process. Our team will help you coordinate times, set up meetings, and provide a secure platform for sharing information in one place.

Miscommunications are more common when traditional teams meet in new environments. Providing a mediator able to see tech-caused confusion prevents costly impasses.

5. Liaison to USDE

It can be time consuming and challenging to understand legislation and guidance from the USDE. Our team will take interpretation and compliance questions directly to USDE.

2. Understand agreements with providers for data flow

4. Provide a mediator for meetings
